

## GREEN TEAM TRAINING

### Who should attend?

Prospective and existing green team leaders. Green team members.  
Board members responsible for establishing/managing green teams.

### What will attendees gain?

Green teams are a powerful tool for delivering the benefits of a responsible business programme to hospitality and tourism companies. This course will ensure that your green team have the leadership, organisation, motivational and analytical skills required to deliver benefits throughout the business.

### Attendees will:

- ✓ Learn how to organise a green team
- ✓ Analyse energy, water and waste data to identify saving opportunities
- ✓ Define a clear purpose and action plan for change

### Workshop content

The session includes a formal presentation element, activities focussed around case studies, a range of interactive activities. Typical course content includes:

- The role of green teams in hospitality and tourism businesses
- How to organise a green team (forming a green team, leading green teams, defining objectives)
- Delivering change (analysing responsible programmes in other hospitality businesses, motivating staff members, identifying technologies and techniques that deliver results, calculating payback)
- Embedding change
- Monitoring results and reporting on performance

### What do participants take back to their organisation?

- A green team organisation chart
- Aims and objectives for the green team
- An understanding of how to motivate others in the organisation
- Tools to assess which technologies work
- Tools from which to calculate payback times for specific technologies
- Knowledge about key performance indicators that can be used to measure success

*“We found the workshop session a good launch pad to push forward our business. ...RHP used techniques that were engaging to everyone. We would recommend RHP to other businesses”*  
Robin Austin, Director of Support Services, Heritage Portfolio Catering
